

# ATHITHI KOT TAB

Innovative revolution in dining

## One Touch Order

Touch screen ordering, Once the order list is finalized, order is sent to billing desk & kitchen unit, thus eliminating any intermediate delay. Just click on the order button and it is done! Supports Multiple Kitchen Printing.

## Item Modifiers

Guest can customize their dishes themselves by selecting various options from the modifiers available or by adding custom cooking instructions.

## Greetings

Greetings service allows the management unit to send greetings for birthday, anniversary, festivals etc to a selected guest table or to all the guests.

## Feedback

This option is very valuable for the owner as it allows the guest to give feedback about their experience at the restaurant, feedback about food, services etc. This can be very useful to fine tune the areas where the restaurant is lacking and to promote its strong points.

## Portable Across Hardware

Athithi Kot Tab is portable with a wide range of hardware devices like ipad, Samsung, blackberry etc.

## Wireless Connectivity

The wireless connectivity enables all the tablets to be connected with Wi-Fi there by giving a hassle free connectivity.

- POS connectivity
- Resellers Enrollment
